## PRIVATE JOURNEY IN THE CALCHAQUIES VALLEY

This area is still very much a hidden treasure of Argentina, unlike Patagonia or Iguazu, which are the most commonly visited destinations. The landscapes are similar to Utah or New Mexico. The Northwest region of our country borders with Chile and Bolivia and was the southernmost outpost of the Inca Empire, which centuries ago expanded to the South and included this part of Argentina within its domains. The charm and the character of this area lies in the culture and folklore of its people, in the architecture of its small towns, the traditions and customs present in its markets, its food, its music and its religious festivities.

In Northern Argentina, distances from place to place are extensive and public transport not very developed. The best way to discover this amazing area is with our private guide and driver who will accompany you from one village to another. A 6 days / 5 nights journey crossing the “Los Cardones” National Park, the colonial village of Cachi and the wineries of Cafayate will make for an unforgettable holiday.
